Government of Alberta Guidance for School Re-entry - Scenario 1	20

Message from Superintendent Lewis

Dear Staff and Parents/Guardians,

On July 21, 2020, the Government of Alberta announced that students would return to in-person classes in September, at near-normal operations, with health measures in place. GYPSD has been working on strategies to mitigate risk, support family choice for re-entry and ensure a solid continuity of learning approach as students and staff return to school.

Most surely, this school year will be unlike any other, but GYPSD remains committed to high-quality teaching and learning environments. As the situation with COVID-19 is highly fluid and constantly evolving, GYPSD will continue to approach the situation with students and staff as the priority.

Safety as a Primary Focus

- To avoid the spread of COVID-19 GYPSD requires the following:
- staff and students conduct daily health checks prior to coming to school
- stay-at-home protocols for those who are feeling unwell
- enhanced cleaning and disinfecting in schools and on buses
- encouraging physical distancing where possible
- creating cohorts of students
- mandatory masks for students from Grade 4-12 and for all staff in settings where physical distancing cannot be maintained, as outlined in provincial guidelines

Encouraging K-3 students who are physically, psychologically or developmentally able to wear a mask, although individuals who are physically, psychologically or developmentally unable to wear a mask, or protected ground under the Alberta Human Rights Act, may be excused from this protocol • Strict hand-hygiene requirements for all students and staff

Respecting Family Choice

GYPSD recognizes that returning to in-person classes may not be the best option for all families. To meet the needs of all students, virtual learning will be offered in the 2020/21 school year. Schools will connect with families in August ([survey link](#)) and December of 2020 to determine whether students will continue with in- person learning or virtual online learning. The GYPSD goal is to ensure all students receive a high-quality education, no matter what option they choose.

Continuity of Learning

We know that students may move between in-person and online learning throughout the year. To ensure the transition is smooth, teachers will work together to make sure students across the Division learn key themes or units of the curriculum at approximately the same time during

the school year. We are all in this together, and as such, everyone must commit to doing their part in taking action to protect one another.

Respectfully,

Carolyn Lewis

Principal's Message

My name is Kurt Scobie and I am the principal of École Mountain View School. All three of my children attended the French Immersion program at ÉMVS and I am proud of the education that we offer. I believe in our staff, and have seen them go above and beyond to make learning fun and meaningful. I enjoy working with such a dedicated group of teachers and support staff.

As the principal, I have made it my mission to learn every student's name and to find a connection with each one of them at the school. I am also working toward developing relationships with all of the parents as well. I start my day on bus supervision and say good morning to students as they get off of the bus or as I walk through the playground on supervision. Students and staff realize that my office is open, and accessible, and it is great to see everyone feeling comfortable in coming to see me. It is imperative that we listen to the concerns and beliefs of our parents and students so that they connect with the education we deliver every day. As a French Immersion site we do our daily announcements in both French and English. While Mr. Corbeil is fully bilingual, I am not but I do my best each day to learn and use the French language. It has been quite an experience having students from all grades speak to me in French, and help to correct my grammar and pronunciation when I am in classrooms.

Our mission at École Mountain View School is to enable our entire school community to be learners who respond positively to the challenges of an ever changing world. We value the development of character through the promotion of honesty, integrity, citizenship, and social responsibility. At École Mountain View School, students, staff, and parents work together to foster a safe and caring environment. Within our school, all children are provided with opportunities to be successful. As part of the community, École Mountain View School students become responsible, productive citizens.

At École Mountain View School, we have a leadership team that shares the responsibilities for ensuring that All Kids are our Kids and the academic Success for All. Louis Corbeil is our Assistant Principal, and a long time French Immersion advocate. He works with all teachers, but is an important part of the French programming. He works alongside myself and teachers to ensure that quality teaching is taking place in our school. Nicole Hudson is our Learning Support Teacher. Mrs. Hudson works with all of our teachers to ensure that all Individualized

Support Plans are meeting the needs of our students. Mrs. Hudson also provides intervention groups where students are working in smaller groups at their instructional level, regardless of grade. Our Family School Liaison Counsellor is Erica Funk. Ms. Funk connects with students and their families and helps to alleviate feelings of stress and anxiety that can be felt by students and parents alike.

It is my sincere hope that students and parents alike feel that they are highly connected to our school. Our family of educators and support staff are here to serve, especially in these challenging times. Please let us know how we are doing.

Kurt Scobie Principal - École Mountain View School

About COVID-19

What is COVID-19?

COVID-19 is an illness caused by a coronavirus. It is a new disease that has not been previously identified in humans. [Coronaviruses](#) are a large family of viruses. Some cause illness in people and others cause illness in animals. Human coronaviruses are common and are typically associated with mild illnesses, similar to the common cold. COVID-19 is a new disease caused by the coronavirus (SARS-CoV-2) and was declared a global pandemic in March 2020. Coronaviruses are most commonly spread from an infected person through:

- respiratory droplets when you cough or sneeze.
- close personal contact, such as touching or shaking hands.
- touching something with the virus on it, then touching your eyes, nose or mouth before washing your hands.

These viruses are not known to spread through ventilation systems or through water.

Symptoms

COVID-19 symptoms can be mild and are similar to influenza and other respiratory illnesses. According to information from the [Government of Alberta](#), most healthy people who are infected with the new, or novel, coronavirus will have a mild illness like a cold or flu. They may have a fever, cough, sore muscles or a sore throat. Some people may feel short of breath. Most people (about 80%) recover from this disease without needing special treatment. People who are much older or who already have health problems are more likely to get sicker with the novel coronavirus and may need to be hospitalized.

Alberta Health identifies the following [symptoms for COVID-19](#):

- Common symptoms: cough, fever (over 38°C), shortness of breath, runny nose or sore throat.
- Other symptoms can include: stuffy nose, painful swallowing, headache, chills, muscle or joint aches, feeling unwell in general, new fatigue or severe exhaustion, gastrointestinal symptoms (nausea, vomiting, diarrhea or unexplained loss of appetite), loss of sense of smell or taste, conjunctivitis (pink eye).
- Symptoms of serious illness: difficulty breathing or pneumonia.

If you have any of these symptoms, stay home and self-isolate to avoid spreading it to others. Alberta Health recommends calling Health Link at 811 for more information.

Evidence indicates that the virus can be transmitted to others from someone who is infected but not showing symptoms. This includes people who have not yet developed symptoms (pre-symptomatic) and those who will never develop symptoms (asymptomatic).

While experts know that these kinds of transmissions are happening among those in close contact or in close physical settings, it is not known to what extent. This means it is extremely important to follow the proven preventative measures.

Prevention

Novel coronavirus spreads the same way as other viruses that cause colds and cases of flu. When people cough or sneeze, tiny drops of liquid go into the air. If the person has the coronavirus, the virus can be in those droplets and make others sick. One way a person can get sick is by breathing in tiny drops that have the virus in them, that can happen while talking with or being close to someone who is sick. Another way is by someone touching something that tiny drops have landed on and then touching their mouth, nose or eyes. Sharing dishes and forks and spoons, water bottles and drink containers could also spread the virus from someone who is sick to someone who is not.

You can help prevent the spread of COVID-19. Prevention starts with awareness. The following practices will help reduce the spread of COVID-19:

- Practice physical distancing
- Self-isolate when you're feeling sick
- Wash your hands frequently
- Cover coughs and sneezes
- Avoid touching your face

Good Hygiene

Wash your hands really well and often with soap and water for at least 20 seconds. Soap and water are always the best. But, if soap and water are not available, you can use hand sanitizer. If your hands are dirty, or you have touched a surface that others have touched, wash your hands. Don't touch your eyes, nose or mouth until your hands are washed. Cough or sneeze into your elbow or a tissue, then wash your hands. Washing your hands, not touching your face, and staying home when you are sick are the best ways to help you and your family and friends stay healthy.

More Information

If there is anything you might be confused or worried about, do not be afraid to ask someone you trust. More information can be found online at alberta.ca/COVID19.

Quarantine and Isolation

CMOH Order 05-2020 has several legal requirements for quarantine and isolation (please see the table below).

Quarantine	Isolation
Required when people are not sick, but have been exposed to someone who has COVID-19.	Required when people are sick, to keep them from infecting others.
The quarantine period for COVID-19 is 14 days. This is because it can take up to 14 days for an individual to develop symptoms.	The isolation period for people who have symptoms (but not diagnosed with COVID-19) is 10 days or until symptoms resolve, whichever is longer.

Re-entry Information for Parents and Students

Following the provincial government's direction, Grande Yellowhead Public School Division (GYPSD) is implementing the Guidance for [School Re-entry - Scenario 1](#) from Alberta Education and Dr. Hinshaw, the Chief Medical Officer of Health, for September 2020. Wherever possible, having children physically attend school is recommended and our teachers are eager to get back into the classroom and work with students. Parents should be reassured that our schools are meeting Alberta Health Services (AHS) guidelines in providing a safe environment for student learning. Dr. Hinshaw has stated the decision to allow in-school learning with public health measures in place weighs the risks of prolonged school closures on students' educational experience and overall well-being against the risk of COVID-19 outbreaks. It is possible that we may have to transition between scenarios during the school year. Health officials will work with school authorities to make the decision to transition all students to partial In-school Classes learning (Scenario 2) or Distance Education (Scenario 3) based on multiple factors including the number of COVID-19 cases in a zone or school and the risk of ongoing transmission. Please note that changes may be made to this plan in response to changes directed by Alberta Education.

In September, teachers' initial focus will address the social and emotional needs of students and administer screening tools to identify gaps in student learning. Supporting students to be ready to learn is an important first step in school re-entry. Once teachers have identified gaps in student learning, they can plan their instruction to address these gaps prior to moving forward.

GYPSD recognizes that each Grande Yellowhead family has unique needs and we are aware that not all families are comfortable with their child(ren) returning to in-school classes in September. While we will be offering in-school classes for students in September, we remain committed to providing an educational program for all students that best supports the child through different program delivery choices.

This document details the conditions that will be in place for each program delivery choice. Parents/guardians will be asked to declare which learning experience is best for each of their children.

This will enable us to deploy teachers and student supports as needed for effective programming. Students may switch learning experience options beginning on February 1, 2021. Parents/guardians will be asked to make this decision in December so there is adequate time to plan for students programming and staffing.

In School Classes	
Daily Health Check for Students and Staff	Before leaving home, staff, children/students, visitors, and volunteers who will access the school for work or education, must self-screen for symptoms each day before they leave for school using the Alberta Health Daily Checklist .
Transportation	
Buses	<p>Children/students will not board the bus if they have symptoms of COVID-19. Be sure that the self-screening tool has been used each day prior to leaving for the bus.</p> <p>Bus Drivers will use a face shield when loading or unloading students from the bus.</p> <p>As much as practical, children/students start boarding from the back seats to the front of the bus.</p> <p>Students will be assigned seats and students who live in the same household will be seated together.</p> <p>As much as practical, students start disembarking from the front seats to the back of the bus.</p> <p>Drivers will increase the frequency of cleaning and disinfecting of high-touch surfaces, such as door handles, window areas, rails, steering wheel, mobile devices and GPS at the end of each morning and evening run.</p> <p>Each driver will keep a vehicle-cleaning log.</p> <p>All children/students must perform hand hygiene (hand sanitizer) when entering the bus. Hand sanitizer will be available.</p> <p>Each school bus will have posters promoting hand hygiene, respiratory etiquette, physical distancing etc., posted in visible locations.</p> <p>No sharing of personal items (food, toys, water bottles, etc.)</p>
Students Driving to School	<p>Students should only have people from their household in the vehicle with them.</p> <p>Students will maintain 2 metres physical distance between all people (except household members) in an area determined by the school (field/paved play area, etc.).</p>

<p>Pick Up and Drop Off</p>	<p>Student pick-up and drop-off should allow physical distancing of 2 metres between families (as much as possible), support respiratory etiquette and access to hand hygiene.</p> <p>Staff and older students will be on the playground before and after school to help younger and newer students to make their way to their doors and to keep them safe as they transition to and from the school. Parents will use the parking lot and drop off lane. Parents should not use the bus lane to ensure the safety of all students.</p> <p>Parents can contact the office with concerns regarding pick up and drop off.</p> <p>Adults bringing students to school will be asked to stay in their vehicle or outside the school, and to maintain a safe physical distance between themselves and others.</p> <p>Those who need to enter the school must book an appointment with the school office. Individuals without an appointment will not be able to enter the school.</p> <p>All doors to the school will be locked at all times. There will be a doorbell at the front door of the school which will be used to contact the secretary when visitors with an appointment need to enter the school.</p> <p>Staff will help to stagger student entry into the school in the morning and exit from the school at the end of the day. Entry and exit will be done through the doors to the student hallways. The front doors will not be used by our students.</p> <p>Specific protocols will be reviewed with staff during the first week of September and this section will be updated with specific actions that apply to the school and the hallways.</p>
<p>Entry Protocols</p>	
<p>Stay at Home when Sick</p>	<p>Stay at home if exhibiting symptoms of COVID-19 that are not related to a pre existing illness/health condition.</p>
<p>Hand Hygiene and Safe Practices</p>	<p>Everyone entering the classroom must perform hand hygiene. Each classroom will be provided with disinfectant and paper towels for cleaning.</p> <p>An emphasis will be placed on hand hygiene, respiratory etiquette and physical distancing as much as possible while in classrooms. Students and staff will wipe their own workspace such as desks, Chromebooks, etc. before and after using. Younger students may require help from the teacher or education assistant.</p> <p>The school will have hand wash stations in multiple hallways in the school and in the main foyer.</p> <p>Washroom breaks will be staggered by classroom and student needs. Hygiene in all parts of the school will be built into the curriculum and school routines.</p>

<p>Physical Distancing</p>	<p>Everyone in the school shall maintain 2 metres physical distancing whenever possible. We will use a variety of protocols such as posters and arrow/standing-dot floor markers to help students maintain physical distancing within the school. Where physical distancing is not possible, extra emphasis on cohorting, hand hygiene, respiratory etiquette, not participating when sick and cleaning and disinfecting on a regular basis before and after activities will be implemented.</p>
<p>Cohorts</p>	<p>Cohorting limits exposure to others and aids in contact tracing if needed. Lockers will be assigned with classroom cohorts. Each class will be considered a cohort and efforts to maintain physical distancing even within a cohort will minimize the risk for disease transmission. When interacting with people outside the cohort, maintain physical distancing of 2 metres. Every effort will be made to limit the number of cohorts that each student is part of. In JK programs, cohort maximum is 30, including staff.</p>
<p>Signage</p>	<p>Our school will have posters promoting hand hygiene, respiratory etiquette, and physical distancing, posted in visible locations. All external doors will have COVID-19 signs posted to indicate that anyone with symptoms cannot enter the school.</p>
<p>Engineered and Administrative Controls in Schools</p>	<p>Our office will be equipped with a Plexiglas divider to protect visitors and staff from potential exposures. Directional arrows will be posted in certain areas of our school to support physical distancing. We will designate different entrances and exits for different classes of students. We will post occupancy limits for bathrooms, common areas and meeting rooms to allow physical distancing. All rugs/soft surfaces that cannot be cleaned and sanitized have been removed from classrooms. Microwaves have been removed from all classrooms. We may remove unnecessary furniture from classrooms.</p>

<p>High Touch Areas</p>	<p>There will be increased frequency of cleaning and disinfecting of high-touch areas in schools. Custodians will be performing ongoing cleaning throughout the day. Where required, extra custodial time has been added to accommodate this work. Washrooms will be cleaned and inspected regularly. Refrigerators, microwaves, and dishwashers will not be used by students in school. There will be no use of school cutlery, cups, dishes, etc. All food sales including hot lunch programs, and bake sales are cancelled. The School Nutrition Program is limited to pre-packaged food and will not start before October 15, 2020.</p>
<p>Visitors to School</p>	<p>No one should enter the school if they are ill. (Complete the self-assessment tool) Follow all instructions of AHS and the school. Only required visitors can attend the school. A record of all visitors will be kept at each school. The number of schools that substitute teachers will work in will be limited as much as possible. All doors to the school will be locked at all times. There will be a doorbell at the front door of the school which will be used to contact the secretary when visitors with an appointment need to enter the school.</p>
<p>Masks</p>	<p>As directed by the Chief Medical Office, GYPSD will implement mandatory masks for students from Grade 4 - 12 and for all staff in settings where physical distancing cannot be maintained. As outlined in provincial guidelines, K–3 students who are physically, psychologically, or developmentally able to wear a mask will be encouraged to do so. Individuals who are physically, psychologically, or developmentally unable to wear a mask, or protected under the Alberta Human Rights Act, may be excused from this protocol. Any person unable to wear a mask for the reasons stated above is required to provide a note from a medical professional. Care should be taken to ensure guidance on non-medical mask use is followed and masks are used correctly and safely. Practices such as physical distancing, cohorting, hand washing, staying home when sick and increased cleaning of surfaces continue to be the priority of public health measures.</p>
<p>Expectations for Shared use of Items/Materials</p>	<p>Absolutely no sharing of personal items will be permitted (pencils, crayons, erasers, toys, water bottles, books). When school items/materials must be shared it must be cleaned and disinfected after each use.</p>

	Chromebooks and computer labs will not be available for use until the beginning of October.
Personal Belongings	All students and staff are encouraged to use a backpack for all personal belongings. Backpacks will be stored in student lockers. Lunches are to be stored with personal belongings (in a backpack). Please consider wide mouth thermos containers for hot food as microwaves are not available. It is recommended that students bring their own water bottle (labelled with their name) and fill water bottles rather than having them drink directly from the mouthpiece of a fountain.
Electronic Devices	Students are encouraged to - bring your own devices (BYOD). Personal devices are to be stored with student personal belongings or on their person.
Responding to Illness	The zone medical officer of health will work with school authorities to quickly identify cases, identify close contacts, create isolation measures when needed, and provide follow-up recommendations. A COVID-19 case may not automatically lead to school closure. It could be that only the group of students and staff who came in close contact will be required to quarantine for 14 days. Parents will be notified if a case of COVID-19 is confirmed at school and public health officials will contact those who were in close contact with the person. GYPSD will support students and staff to learn or work at home if they are required to self-isolate. Any school authority/school connected to a confirmed or probable case of COVID-19 will be contacted by AHS and may be required to close in-person classes to allow the public health investigation to take place. The decision to send a cohort/class home or to cancel classes will be made in consultation with the local Minister of Health.
Classes and Programming	
Instruction	In September, the initial focus for students, who return to physical classrooms, will be on their social/emotional needs and administering screening tools to identify gaps in learning. Kindergarten education in Alberta is not mandatory. Given that our early learning and Kindergarten programs are play-based and focused on socialization, a virtual program is not available. Kindergarten students will have the option for on-site learning or to join us in Grade 1.
Class Composition	Class sizes will be similar to previous years as there is no additional funding to hire more teachers. Where 2 metres is not possible between desks, students will be separated by the greatest possible spacing in each classroom.

	<p>Teachers will have and follow seating plans for all classes In situations where physical distancing is not possible, extra emphasis on hand hygiene, respiratory etiquette, not participating when sick and cleaning and disinfecting on a regular basis before and after activities will occur.</p> <p>Where tables are used in class, plexiglass dividers will be placed on the table where students are facing one another. These dividers will be used from Kindergarten to Grade 3.</p> <p>Each class will be considered a cohort and interaction between cohorts will be minimized.</p> <p>Cohorts encourage individuals who cannot maintain 2 meter physical distance (i.e. classes) to interact with the same people (their cohort) rather than switching daily contacts or randomly interacting with other people.</p> <p>Within each cohort (classroom), students will maintain the greatest physical distancing possible to minimize the risk for disease transmission (i.e., spacing between desks).</p>
Student Movement	<p>Where possible, teachers will move between classrooms and students will remain at their desks.</p> <p>Hallway protocols: floor markers, staff supervision, staggering of cohorts, will be in place to ensure students remain a safe distance apart while moving throughout the building</p> <p>Teachers and staff will reinforce protocols posted in each school re: (promoting hand hygiene, respiratory etiquette, physical distancing etc., posted in visible locations.)</p> <p>Specific protocols will be reviewed with staff during the first week of September and this section will be updated with specific actions that apply to the school and the hallways.</p>
Cleaning Workspaces	<p>Materials for staff and students to clean/sanitize their own workspace (desks, shared devices, etc.) will be available in the classroom.</p> <p>Students and staff will wipe their own workspace before and after using. If students remain at the same desk all day, this would be done at the beginning and end of the day.</p> <p>Custodians will be on site during the day to clean common areas and washrooms and to restock hygiene supplies as needed.</p>
Breaks	<p>Snack, lunch, recess, and class change breaks will be staggered to maintain physical distancing among children/students.</p> <p>Students will be given extra time before and after recess and lunch to stagger and reduce the number of students in the halls at one time.</p> <p>Recess doors will be separated for entrance and exit.</p>
Using Playground Equipment	<p>Playgrounds will not be open during school time until further notice.</p>

Physical Education	<p>When possible, physical education will take place outside and will follow the Guidance for Sport, Physical Activity and Recreation. Teachers will choose activities or sports that support physical distancing.</p> <p>Locker rooms and change rooms:</p> <ul style="list-style-type: none"> Elementary students will not change for Physical Education classes.
Music Instruction	<p>Music classes will continue with strict controls on what will be taught in each class. No singing or playing wind instruments will occur in music class.</p>
Option Courses	<p>Career and Technology Foundation classes on Friday afternoons (Options) for all grade 5 - 7 students will be postponed for the first semester in order to better preserve class cohorts. CTF classes will be revisited in February 2021.</p>
Extracurricular Activities and Field Trips	<p>Extracurricular activities, field trips requiring busing, and all overnight student excursions are postponed. This will be reviewed as the year progresses</p>
<h3>Alternate Education Programming Options</h3>	
What is Virtual Education?	<p>All virtual education will be parent led and supported by a certificated Grande Yellowhead and/or Alberta Distance Learning teacher.</p> <p>Virtual education is the online and/or print delivery of student programming by Grande Yellowhead and Alberta Distance Learning teacher to students who are at home. Unlike the remote learning implemented in the spring, all outcomes from each course will be taught in virtual education just as they are with in-school classes. It should be noted that virtual education might not mirror in-class instruction.</p> <p>Virtual Education in Grades 1 through Grade 12:</p> <p>Learning materials will be virtual; however, a print version may be requested.</p> <p>Print material will be distributed and deposited (on completion) from the local school.</p> <p>Teacher support is available during school hours online (email and Google Meet) or in person, through appointment only.</p> <p>Students registered for virtual education will require a laptop/Chromebook connected to the internet as well as a working camera/microphone.</p>
Student and Parent Responsibilities	<p>Students and parents are expected to be engaged in both online and offline learning processes.</p> <p>Students are responsible to:</p>

	<ul style="list-style-type: none"> • Submit attendance daily • Engage both online and offline • Attend online sessions as scheduled • As the teacher questions as needed • Submit assignments and assessment according to schedules developed by their teacher <p>Parents and guardians are responsible to:</p> <ul style="list-style-type: none"> • Ensure students have a device connected to the internet with a working camera and microphone to complete their coursework • Support students by ensuring they have the space, tools and time to complete coursework as assigned. • Encourage their child to connect with the teacher when they have questions • Connect with the teacher as needed to support their child's learning
Does Virtual Education lead to a High School Diploma?	Yes, all required courses for a high school diploma completed through virtual education lead to an Alberta High School Diploma as distance education/learning at home are taught by a certificated teacher and follows the Alberta Education Programs of Study.
Can a Student Switch to In-school Classes?	If the virtual, learn-at-home option is not meeting your child's needs, re-entry to traditional learning can occur at any time during the school year. Parents will need to provide the principal ample notice of their decision to return to traditional in-class learning so that teachers can prepare to welcome the child back to the classroom.
Electronic Devices	Each student enrolled in virtual education will require their own device (a Chromebook, laptop or computer) connected to the internet with a working camera/microphone in order to participate. Parents/guardians are responsible to ensure that their child has a device.
Non-core Courses	The decision to provide instruction in non-core courses will be made at the end of August and will be dependent on the number of students who are enrolled in distance education.
Provincial Testing	GYPSD will not be participating in optional provincial assessments (PATs) for the 2020/21 school year.
School Council Meetings	School council meetings for the 2020–2021 school year will proceed. These meetings must follow Alberta Health restrictions for social gatherings as well as the safety protocols and expectations outlined in both the provincial School Re-entry Plan

	and this COVID-19 Division Re-entry Strategy. Schools will support their school council members to determine if they will hold in-person meetings or online virtual meetings.
Support for Students and Staff	
Providing Mental Health Support	Staff have access to professional learning on supporting the mental health of students through the Division Psychologist and Family School Liaison Counselor (FSLC). Information on accessing mental health resources for students, families and staff is posted on the Grande Yellowhead Mental Health & Wellness site and the GYPSD website .
Supporting Students with Special Needs	Returning to school can cause additional concern or anxiety for families of students with special needs. Families need to know we are taking steps to support them. This includes: Working with Alberta Health Services on COVID-19 safety protocols for some of the complex medical interventions and supports some students require, to keep both students and staff as safe as possible. Adding COVID-19-specific strategies as needed to student-support plans, such as Instructional Support Plans (ISPs), Medication Management Plans or Individual Student Behaviour Plans. Our school administration and Learning Support Teachers will be available for any individualized concerns.

Declaration of Learning Experience

Parents/guardians have been asked to declare which learning experience is best for each of their children by noon on August 14, 2020 and in doing so, make a five-month (one semester) commitment until the end of January 2021. This will enable the School Division to deploy teachers, resources and student supports as needed for effective programming.

All Grande Yellowhead schools have been given guidelines to prepare for Scenario 1, and will make adjustments based on their unique school community and physical layout of each school.

Please note that this plan may be updated in response to changes directed by Alberta Education. Alberta Health and Alberta Education will determine any changes in the school re-entry scenario with information on local school-based and zone information. We will remain in communication with the Alberta government and will continue to follow its advice.
